chm Community Health Media

PARTICIPANT USER GUIDE · OCTOBER 2026

From account setup to honorarium

A detailed, step-by-step guide to registering for CHM Live webinars, completing post-session follow-up, and understanding payment release.

THE COMPLETE PARTICIPANT FLOW

Log in or create an account → register for Live → receive a registration email → wait for administrator approval → receive the calendar invitation and user guide → join the webinar in the platform → complete the survey after it ends → receive the variable program honorarium when an administrator releases payment (1–30 days).

How to use this guide

Follow the sections in order the first time. Screenshot frames show participant screens captured in the video and are cropped to omit account details and payout values. Dashed boxes mark screens or emails that the video did not show; they are intentionally left blank for screenshots to be inserted.

01 · ACCOUNT
Sign in or create
Set up access and check required profile details.

02 · REGISTRATION
Sign up for Live
Choose a session, submit your request, check email.

03 · APPROVAL
Wait for CHM review
Approval email includes calendar invitation and guide.

04 · WEBINAR
Join through the platform
Confirm the date and time in your calendar invite.

05 · SURVEY
Complete post-session follow-up
Survey opens after the webinar; complete within 7 days.

06 · PAYMENT
Honorarium release
Amount varies; administrator releases in 1–30 days.

01 Account access · 2
02 Live registration · 3
03 Approval and emails · 4
04 Webinar day · 5
05 Post-session survey · 6
06 Honorarium and payment · 7
07 Other participant tools · 8
08 Troubleshooting and support · 9

The webinar is recorded. Follow program-specific directions from CHM. Educational content is not medical advice and does not replace professional clinical judgment.

01 · ACCOUNT ACCESS

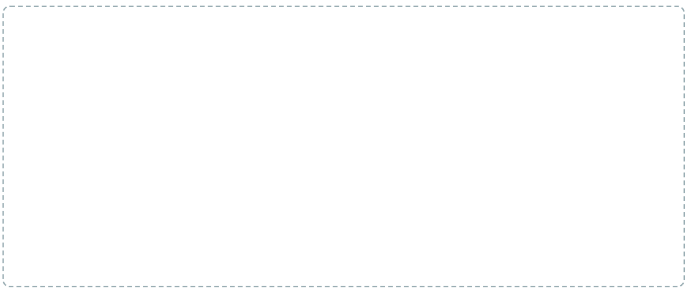

Sign in or create your account

Use the account you will use for webinar registration and participant tools. Keep access to the work email address you enter.

Already have an account

1. Open app.communityhealth.media/login.
2. Enter the email address and password associated with your CHM account, or use Google sign-in if that is how you registered.
3. Select the sign-in control shown on the page and wait for the participant area to load.
4. If you cannot remember the password, select **Forgot password?**, enter the account email, choose **Send reset link**, then follow the reset-code instructions.

Expected: the participant area opens with navigation such as Dashboard, Live, Office Hrs, Conversations, Podcasts, Surveys, KOL Network, and Earnings.

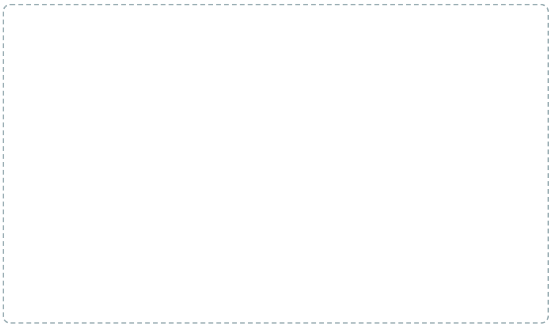

SCREENSHOT 1 · Login screen: email/Google choice and sign-in action.

New to CHM

1. Open app.communityhealth.media/join.
2. Choose **Continue with Google**, or use the email form.
3. Complete the required fields: First name, Last name, Work email, Mobile phone (U.S. number), Password, Role, State, and 5-digit ZIP code.
4. Institution / Hospital and City are optional. Choose the role that best describes your professional background.
5. Create a password with at least 8 characters, an uppercase and a lowercase letter, a number, and a symbol.
6. Submit the account form, then follow the on-screen confirmation prompt before continuing.

Keep details consistent. Use the same account for Live registration and later participant tools. Never enter patient-identifying information into profile fields.

SCREENSHOT 2 · Join form: required fields, role selector, and account creation control.

02 · LIVE REGISTRATION

Find a webinar and submit your registration

Creating an account does not register you for a webinar. Sign up for each Live session you want to attend.

1 · Open Live

After signing in, locate **Live** in the participant navigation and select it.

2 · Review upcoming sessions

Scan the Live page for the program you want. Check the session title, date, time, description, and registration status before opening it.

3 · Open an available session

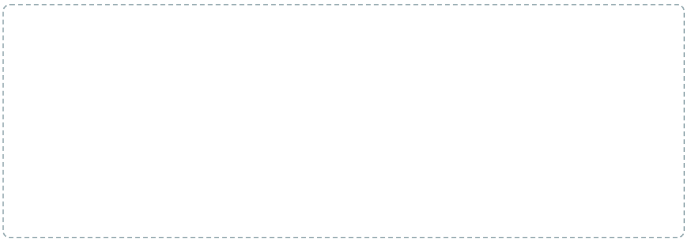

Choose a session marked **Registration open**. Review the full session details before registering. The Live page may also show **Register for the next session**.

4 · Complete the registration prompt

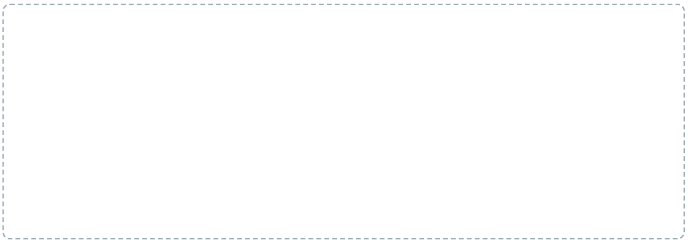

Follow the prompts on the session page. If asked what you are stuck on, share a concise clinical question or topic for faculty. Keep the case general—do not include names, dates of birth, record numbers, or other identifying details.

5 · Submit once and check email

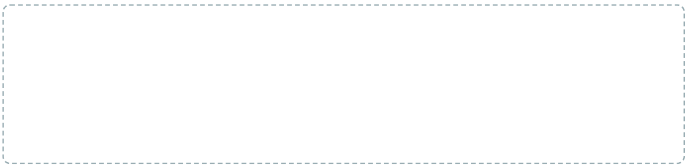

Submit the registration request. Check the work-email inbox for CHM's registration email. This confirms receipt; it does not mean approval is complete.

SCREENSHOT 3 · Participant navigation with Live selected and upcoming session list.

SCREENSHOT 4 · Session detail: status, event details, and registration action.

SCREENSHOT 5 · Registration prompt, including the clinical-question field.

Before you submit: confirm the session date and time. If a registration email does not appear, check spam/junk and make sure you used the correct work email. Do not create a second request while the first may be under review.

03 · REGISTRATION APPROVAL

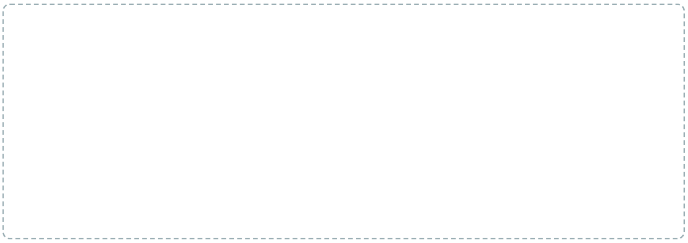

Understand the two emails

Registration receipt and administrator approval are separate steps. Do not treat the first email as a confirmed seat.

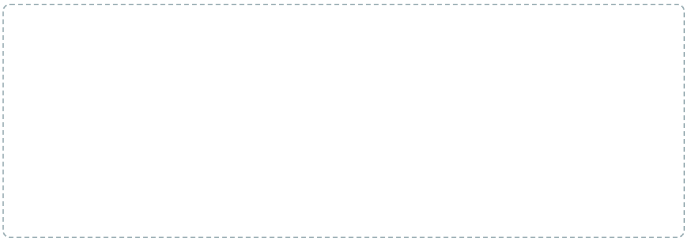

Platform registration

1. **Registration email:** after you submit the platform form, CHM sends a registration email. It confirms that your request was received.
2. **Approval review:** wait for an administrator to review the request. Keep checking the inbox and spam/junk folder for the address on your CHM account.
3. **Approval email:** if approved, CHM sends another email with a calendar invitation and the participant user guide.
4. **Save both:** accept or save the calendar invitation so the session date and time are easy to find. Keep the guide available for the webinar.

> **Still waiting?** If you are unsure whether your request was received, search for the registration email first. If you need help, contact CHM with the session title and the email used to register.

SCREENSHOT 6 · Registration receipt email (subject, confirmation, no private address).

SCREENSHOT 7 · Approval email showing confirmed status and next steps.

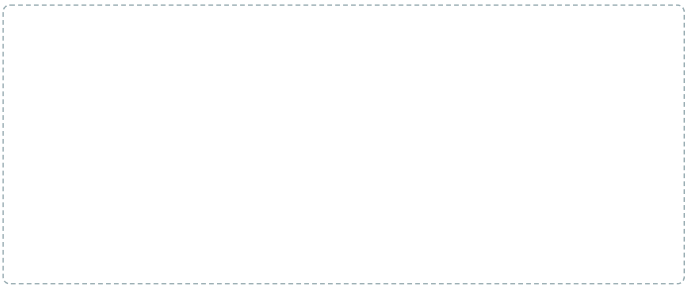

Calendar invitation, guide, and direct team invitation

Approved through the platform

Open the approval email. Save the calendar invitation and review the attached or linked participant guide. Use the invitation to verify the start time.

Registration email from the CHM team

Some participants receive registration details directly from the CHM team instead of starting in the platform. Follow that message's instructions; use the CHM platform to join the webinar as directed.

SCREENSHOT 8 · Calendar invitation and participant user guide in the approved email.

04 · WEBINAR DAY

Join the webinar through CHM

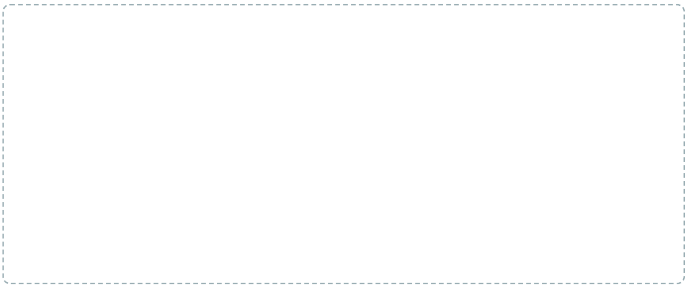

Use the platform—not a guessed or forwarded link—to open the webinar associated with your registration.

Before the start time

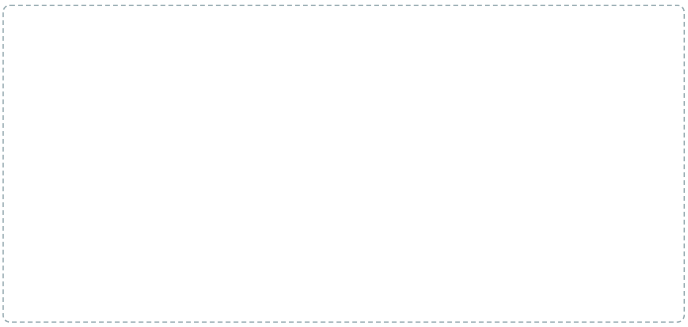

1. Open your saved calendar invitation and confirm the date, time, and time zone.
2. Sign in to app.communityhealth.media/login with the same CHM account used to register.
3. Choose **Live** in the participant navigation and locate the webinar you were approved to attend.
4. Open the event page and verify that the session title and start time match the invitation.
5. At the scheduled time, choose the join control displayed on the session page. The exact label can vary by session; use the join option shown in your platform.

During and after

- Follow any program-specific directions from CHM or the moderator.
- The webinar is recorded. Recording access or replay availability depends on the program; follow the instructions you receive rather than assuming a replay link.
- After the webinar ends, proceed to **Surveys** for the post-session follow-up.

SCREENSHOT 9 · Calendar event showing the correct webinar and local time.

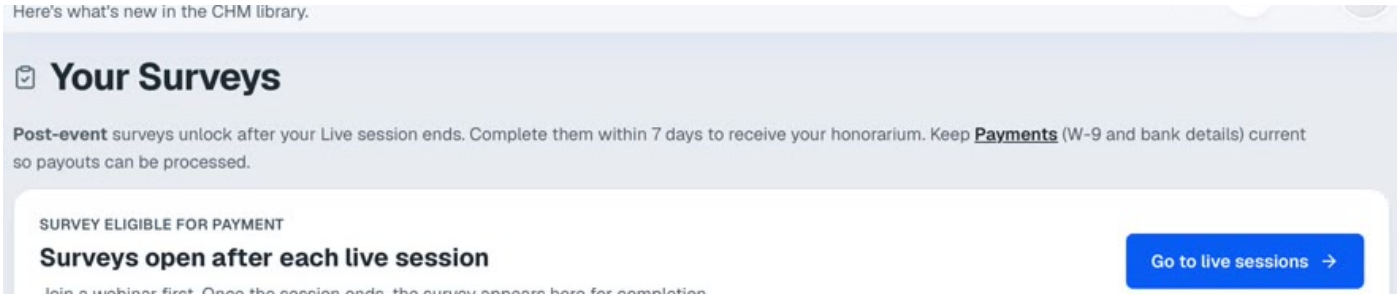

SCREENSHOT 10 · Approved session page with the join option visible (remove meeting IDs and attendee details).

If the join option is missing: confirm approval, the session date/time, and that you are signed into the correct account. See Troubleshooting on page 9.

05 · POST-SESSION SURVEY

Complete the survey after the webinar

The participant screen says surveys unlock after the Live session ends and advises completing them within seven days to receive the honorarium.

Participant Surveys screen from the recording, cropped to remove account identity and progress totals.

1. In the participant navigation, select **Surveys**.
2. After your webinar ends, find the matching post-event survey. It may not appear before the session has ended.
3. Open the survey card. Confirm the session/program shown is the one you attended.
4. Answer the survey questions and complete all required items shown by the form. Submit within seven days.
5. Return to Surveys. For a completed item, select **View submission** to review your response.

> **Survey not listed?** Refresh or revisit Surveys after the event ends. If it remains missing, contact CHM with the webinar title and date.

SCREENSHOT 11 · Survey card for the matching webinar and the control to open it.

SCREENSHOT 12 · Survey form and submit action (not shown in the recording).

SCREENSHOT 13 · Submission confirmation or completed survey card.

> **After submission:** confirm that the survey appears as completed. Use **View submission** if you want to review what you sent. Keep your Payment Settings current so CHM can process an eligible honorarium.

06 · HONORARIUM AND PAYMENT

Track payment release

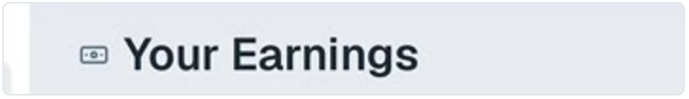

Completing the post-session survey awards the program honorarium. Amounts vary by program; this guide intentionally shows no payout amounts.

Survey submitted → **Honorarium awarded** → **Admin releases payment within 1–30 days**

Set up or confirm Payment Settings

1. From the participant navigation, open **Earnings**.
2. Choose **Payment Settings** to connect or update payment details.
3. Complete the required tax information, including your W-9, and connect your bank account.
4. Check that the setup is complete. CHM indicates payouts are sent through Stripe by ACH once bank and tax details are connected.
5. After the survey, allow the CHM administrator 1–30 days to release payment. The timing is managed by the CHM team; participants do not release the payment themselves.
6. Use **Earnings** to review payout status and payment activity.

Protect financial information. Never send bank details, tax identifiers, or passwords in a support message.

Earnings page from the recording, cropped to exclude payout amounts and account details.

SCREENSHOT 14 · Payment Settings: connection status and tax/bank setup (redact all personal details).

SCREENSHOT 15 · Earnings status or payment history without amounts or identity.

IF PAYMENT HAS NOT BEEN RELEASED

First confirm the survey is submitted and Payment Settings are complete. Allow the full 1–30-day administrator release window. If 30 days have passed, contact CHM with the program and webinar title.

07 · OTHER PARTICIPANT FEATURES

Explore the rest of the platform

These areas appear in the participant navigation shown in the recording. Some content is available only when CHM has scheduled or published it.

Dashboard

Return to your participant home area and review available program activity.

Conversations

Search sessions, trials, or faculty; use faculty browsing, then choose **Play** or **More detail**.

KOL Network

Browse the available faculty and expert directory.

Office Hrs

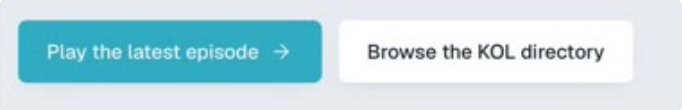

Open **Office Hrs** and review scheduled times. If none are listed, check again when new sessions are announced.

Podcasts

Choose **Play the latest episode** or **Browse the KOL directory**.

Program hub time slots

If your program provides a separate hub link, open it, compare the displayed date/time with your availability, then follow its booking prompts. Contact the program team if the link or slots are missing.

Podcasts controls from the recording, cropped to remove names and account details.

SCREENSHOT 16 · Conversations search/filter area.

SCREENSHOT 17 · Office Hrs schedule or no-sessions state.

SCREENSHOT 18 · KOL Network directory view.

Resolve common issues

Use the check that matches where you are in the participant flow. When contacting CHM, include the session title and date whenever possible.

ISSUE	WHAT TO CHECK	NEXT ACTION
No registration email	Confirm the work email used on the registration form; check spam/junk.	Contact CHM with the webinar title and registration date. Do not resubmit repeatedly.
Still awaiting approval	Look for a registration-received email; it is not the approval email.	Continue monitoring email. If the registration appears stuck, contact CHM with the session title.
Approved, but no calendar invite or guide	Search the inbox and spam/junk for the CHM approval email.	Contact the CHM team or the program contact if you still cannot find it.
Join option missing	Confirm approval, correct account, webinar date/time, and that the session page is open.	Contact CHM or your program administrator if the join option is still unavailable at start time.
Survey missing	Surveys unlock after the webinar ends. Check Surveys again afterward.	If it is still missing, send CHM the webinar title and date.
Survey will not submit	Review the form for required questions or validation messages.	If it still fails, contact CHM with the exact error message—no patient information.
Payment not released	Confirm survey submission and complete W-9/bank setup; allow 1–30 days.	After 30 days, contact CHM with program and webinar title.

Contact CHM support

Go to app.communityhealth.media/contact and complete the contact form. Provide your name, work email, organisation if useful, a short description, and the program/session title and date.

Do not send passwords, patient-identifying information, bank details, or tax identifiers. For an urgent program-day issue, use the program contact provided in your invitation.

SCREENSHOT 19 · Contact form with name, work email, organisation (optional), issue details, and Send.

Public participant instructions reviewed October 13, 2026. Registration, approval, and honorarium eligibility may vary by program. CHM educational content is not medical advice.
