

Privacy Policy — Summary for Zoom Marketplace

Full policy URL: <https://testapp.communityhealth.media/privacy> · Effective date: May 22, 2026 · Operator: Community Health Media (CHM)

Users enter into an agreement with Community Health Media when they create an account or use the CHT Platform. The public Privacy Policy describes collection and use of personal information, including account data, program/webinar participation, surveys, payment/honorarium records, and device/usage data.

Zoom / Meeting SDK data handling

For in-browser Zoom sessions, CHT may pass the authenticated user's display name and email to the Zoom Meeting SDK join flow, and may store attendance-related events (join/leave) associated with CHT program enrollments. Zoom SDK secrets remain on the server (AWS Secrets Manager). CHM does not sell personal information and shares data with service providers (hosting, auth, email, video conferencing, payments, forms) under contractual safeguards.

Security measures (policy excerpt)

Encryption in transit, access controls, and audit logging for administrative actions. Retention limited to service delivery, legal/accreditation needs, and dispute resolution.

Contact and rights requests: use the contact details published on the Privacy Policy page. This PDF is a Marketplace convenience summary; the live URL is authoritative.
